Division of Nuclear Sciences - Risk Status Update

Report as of: January 10, 2026

1. Executive Summary

- **Critical risks by Department/ Area/ Sub-area**
  - Finance/ Financial management & reporting/ Advances - 1 critical risk
  - Nuclear Applications/ Procure-to-Pay (P2P) cycle/ Sourcing - 1 critical risk

Under the new risk governance guidelines issued January 5, 2026, 2 risks were reclassified as Critical risks (Departments - Nuclear Applications, Finance), and 2 risks were reclassified as High risks (Department - Field Operations)

- Sub-areas rated as having Poor risk management

Sub-area	Rating	Business criticality
Fraud reporting	Poor risk management	High
Vendor performance	Poor risk management	High

2. Action needed: Critical/ High risks with action overdue for more than 3 calendar months

- **Critical risks by Area/ Sub-area with action overdue for more than 3 calendar months**
  - Financial management & reporting/ Advances – 1 critical risk
  - Procure-to-Pay (P2P) cycle/ Sourcing – 1 critical risk
- **High risks by Area/ Sub-area with action overdue for more than 3 calendar months**
  - Procure-to-Pay (P2P) cycle/ Sourcing – 2 high risks
  - Training/ Fraud reporting – 2 high risks

3. Areas/ Sub-areas with poor risk management (50% of its risks with action overdue)

Department	**Area**	**Sub-area**	**Rating**	**Business criticality**
Field Operations	Human Resources	Misuse of leave	Poor risk management	Low
Field Operations	Training	Fraud reporting	Poor risk management	High
Field Operations	Vendor management	Vendor performance	Poor risk management	High
Nuclear Applications	Procure-to-Pay (P2P) cycle	Procurement plan	Poor risk management	Medium
Nuclear Applications	Procure-to-Pay (P2P) cycle	Sourcing	Poor risk management	Medium
Nuclear Applications	Vendor management	Vendor performance	Poor risk management	High

4. Departments with at least one Sub-area assessed as with poor risk management

- **Field Operations** (Sub-areas: Misuse of leave, Fraud reporting, Vendor performance)
- **Nuclear Applications** (Sub-areas: Procurement plan, Sourcing, Vendor performance)

Key objectives impacted due to poor risk management: **Partnerships, Operational efficiency, Capability building, Governance, People focus**

5. Risks to monitor by Area compared to Q4 2025

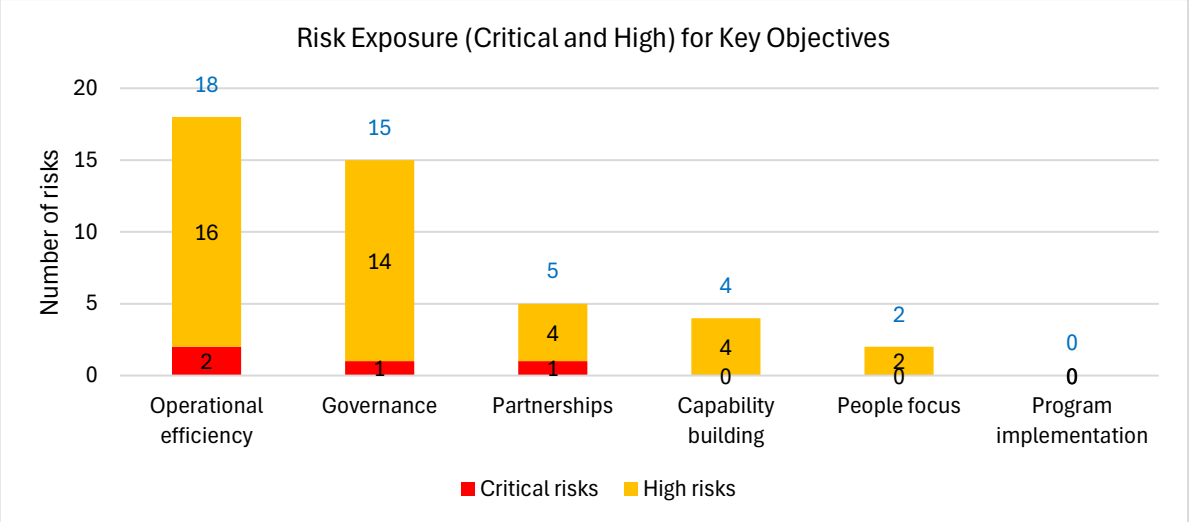

Risks to monitor *Risks with high exposure, overdue action, but no departmental escalation*

Area	Number of risks Q4 2025	Number of risks January 10, 2026	Change
Procure-to-Pay (P2P) cycle	2	2	No change

Areas: Vendor management, Financial management & reporting, Training, Human Resources, Project Monitoring – No change (0 risks to monitor in Q4 2025 and 0 risks to monitor as on January 10, 2026)

6. Impact on key objectives

Key Objective	Critical risks	High risks	Risks to monitor
Operational efficiency	2	16	2
Governance	1	14	0
Partnerships	1	4	2
Capability building	0	4	0
People focus	0	2	0
Program implementation	0	0	0

This divisional risk update is aligned with the latest risk classification guidelines from the Governance Division.
