Re: Complaint Regarding My Home Purchase

Dear Managing Broker,

I am submitting this complaint because I have concerns. I was represented by Jane Clark, but unfortunately, she went out of town during a crucial time in the process. We closed on June 15th, and the week prior, it was discovered that the septic tank had not been pumped. I received an invoice stating it would be $500 to pump the septic tank from the company I used on a previous property. Mark Wilson was filling in while Jane was out of town, and he got the seller to sign an amendment stating they would contribute an additional $500 at closing to offset the company. Now we have closed, and the septic company said it will actually cost $1,500. I feel like if Jane had been available, she would have known the $500 invoice was too low. The company says it is a typo and will not honor the $500. I do not have these additional funds with my baby due soon and think Jane should pay the $1000 difference.

Sincerely,

Ryan Smith
