

30x Pocket Illuminated Microscope

This easy to focus 30x pocket microscope is excellent for classroom investigation as well as outdoor use. Includes a protective case. Requires two AA batteries (not included).

MCR30X 30X Pocket Illuminated Microscope

⚠ **WARNING**: Cancer and Reproductive Harm - www.P65Warnings.ca.gov.

- 30x pocket microscope — easy to focus for clear viewing
- Ideal for classroom investigations and outdoor exploration
- Comes with a protective case
- Powered by two AA batteries (not included)

Prism Microscope, 40x

Durable introductory microscope is ideal for classroom or field use. The microscope body, viewing tube and stage are constructed of cast metal. Light-gathering lucite prism provides sub-stage illumination, without the need for electricity, by using ambient or room light. 40x magnification is provided by a widefield 10x eyepiece and 4x objective. Tilt mechanism enables users to adjust the angle of the viewing tube while slides are held securely in place by spring-loaded stage clips.

Microscope dimensions are 10.5”H x 4”W x 5.5”D.

MCRPR1 Prism Microscope, 40x

- Durable introductory microscope for classroom or field use
- Cast metal construction: body, viewing tube, and stage
- Lucite prism illumination uses ambient light — no electricity required
- Provides 40x magnification with widefield 10x eyepiece and 4x objective
- Tilt mechanism for adjustable viewing angle
- Spring-loaded stage clips hold slides securely
- Dimensions: 10.5″ H × 4″ W × 5.5″ D

Hand Microtome

Easy to use, this microtome lets you cut sections to 10 microns. Equipped with a clamping mechanism for securing various shapes and sizes of objects. Supplied in a cardboard storage box and includes a tempered steel razor knife. Includes instructions for use.

- Easy-to-use microtome for preparing thin sections
- Cuts sections up to 10 microns
- Features a clamping mechanism to secure objects of various shapes and sizes
- Supplied in a cardboard storage box
- Includes a tempered steel razor knife and instructions for use

MCT001 Hand Microtome

Gel Staining Tray

This Polypropylene Staining Tray helps in staining, fixing, de-staining, and handling fragile electrophoresis gels and membranes. Tray, as well as cover, will resist temperatures from -70° to 70° Celsius. The LDPE plug provides a leak-proof seal and allows easy liquid drainage.

Shipping weight: 0.3 lbs. Dimensions: 5” x 5” x 2”.

79301 Gel Staining Tray

+ Polypropylene staining tray for staining, fixing, de-staining, and handling fragile electrophoresis gels/membranes
+ Tray and cover resist temperatures from -70° to 70° Celsius
+ LDPE plug ensures a leak-proof seal and allows easy liquid drainage

L shaped Spreader

L-shaped spreaders are a convenient way of spreading samples on petri dishes. The spreaders feature a smooth and rounded edged to prevent gouging or scraping while spreading samples. Packs of 100. Sterilized.

UNLSPREAD-PK/100 L shaped Spreader

- L-shaped spreaders for evenly distributing samples on petri dishes
- Smooth, rounded edges prevent gouging or scraping during use
- Supplied in packs of 100
- Sterilized for safe and ready-to-use applications

Colony Counter

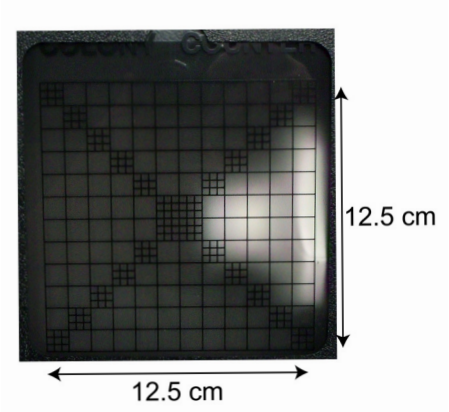

Microorganisms are far too small to count with the naked eye, but they form visible colonies when they join together. When a Petri dish is placed on a lighted base, the grid pattern is illuminated. The 12 by 12 grid contains 1 cm x 1 cm squares. 24 of the squares are broken down into smaller increments of 9 squares, each 1/3 cm in size. To calculate an average colony count per square, the visible colonies are added together and divided by the total number of squares.

Since the Petri dish is close to the light source, it is recommended to use an LED bulb to reduce the risk of heat damaging the sample. The apparatus has a standard bulb base. The power cord has an inline on/off switch.

Overall dimensions are 9” x 9” x 7”, 3.1 pounds.
A light bulb is required but not included. Includes activity guide.

CCOUNTER Colony Counter

⚠ **WARNING**: Cancer and Reproductive Harm - www.P65Warnings.ca.gov.

Large viewing area.

+ Colony Counter grid includes 1 cm and 1/3 cm squares
+ LED bulbs are recommended to protect sensitive samples
+ Large viewing area
+ Includes activity guide

Fermentation Tubes

The process of fermentation is when microorganisms act upon organic materials and produce gas as a byproduct. Different microorganisms and different materials produce various and unique gases. These gases rise and need to be collected and measured.

These fermentation tubes are made from durable borosilicate glass and include blue graduations. The open end has a bulb forholding the materials being fermented. As the gas produced by the microorganisms rises into the vertical tube, the graduated increments allow accurate measurement to intervals of 0.1 mL in the 5 mL tube, or 0.2 mL in the 20 mL tube. Both tubes have a round glass base.

+ Blue graduations
+ Glass base holds the apparatus stable
+ Made from Borosilicate 3.3 glass

Fermentation Tubes

Item #	Capacity (mL)	Grad. Interval (mL)	Outside Diameter of Tube	Outside Diameter of Bulb	Length of Verticle Tube	Opening Diameter
FERMTB5	5	0.1 mL	13 mm	27 mm	105 mm	12 mm
FERMTB20	20	0.2 mL	17 mm	30 mm	180 mm	15 mm

Wood Splints

These wood splints (5 1/2” x 13/64”) are used for variety of applications including as applicators or markers in planting. Sold as a pack of 500.

WSP500 Wood Splints

+ Wood splints measuring 5 1/2″ × 13/64″
+ Useful for a variety of applications including applicators or planting markers
+ Pack of 500 for bulk use and convenience

Blood Pressure Monitoring Kit

Perfect for students, our blood pressure monitoring kit includes everything needed to measure blood pressure and pulse. The kit includes a teaching stethoscope and an aneroid sphygmomanometer.

Shipping weight: 1 lb., Dimensions: 7” x 4” x 2”.

SPHYSET Blood Pressure Monitoring Kit

⚠ **WARNING**: Cancer and Reproductive Harm - www.P65Warnings.ca.gov.

- Blood pressure monitoring kit — ideal for student use and training
- Includes teaching stethoscope and aneroid sphygmomanometer
- Provides everything needed to measure blood pressure and pulse

Sphygmomanometer

This student blood pressure set has a self-adjusting cuff with gauge holder. Includes a vinyl storage pouch.

- This student blood pressure set has a self-adjusting cuff with gauge holder
- Includes a vinyl storage pouch

SPHY01 Sphygmomanometer

Stethoscope, Bowles Type

This stethoscope features a chestpiece composed of a 3.8 cm flat disc diaphragm in a shallow metal bell cup. Chrome-plated binaurals are adjustable, and tubing is made of PVC. Ear tubes include plastic ear tips for comfort. Supplied with a spare diaphragm and extra set of ear tips.

- Stethoscope with chestpiece: 3.8 cm flat disc diaphragm in shallow metal bell cup
- Chrome-plated adjustable binaurals for durability and fit
- PVC tubing for reliable performance
- Ear tubes fitted with plastic ear tips for comfort
- Supplied with a spare diaphragm and an extra set of ear tips

STHB01 Stethoscope, Bowles Type

⚠ **WARNING**: Cancer and Reproductive Harm - www.P65Warnings.ca.gov.

Includes a spare diaphragm and extra set of ear tips.

Student Stethoscope - Child Size

Child size stethoscope offers an opportunity for students to hear their own heartbeats.

STHC01 Student Stethoscope - Child Size

⚠ **WARNING**: Cancer and Reproductive Harm - www.P65Warnings.ca.gov.

- Sized for smaller students
- Allows students to hear their own heartbeat
- Includes spare diaphragm and extra set of ear tips

Stethoscope, Ford Type

Ford stethoscope uses a deep 2.5 cm bell with a dual stem chestpiece. Chrome-plated binaurals are adjustable, and tubing is made of PVC. Ear tubes include plastic ear tips for comfort. Supplied with an extra set of ear tips.

- + Ford stethoscope with deep 2.5 cm bell and dual stem chestpiece
- + Chrome-plated adjustable binaurals for durability and fit
- + PVC tubing for reliable performance
- + Ear tubes fitted with plastic ear tips for comfort
- + Supplied with an extra set of ear tips

STHF01 Stethoscope, Ford Type

⚠ **WARNING**: Cancer and Reproductive Harm - www.P65Warnings.ca.gov.

Stethoscope, Dual Earpiece - Teaching

Teaching Bowles stethoscope has a 3.8 cm chestpiece and two sets of binaurals joined together to allow two people to listen simultaneously. Chrome-plated binaurals are adjustable, and tubing is made of PVC. Ear tubes include plastic ear tips for comfort. Supplied with a spare diaphragm and two extra sets of ear tips.

- Teaching Bowles stethoscope with 3.8 cm chestpiece
- Two sets of binaurals joined together so two people can listen simultaneously
- Chrome-plated adjustable binaurals for durability and fit
- PVC tubing for reliable performance
- Ear tubes fitted with plastic ear tips for comfort
- Supplied with a spare diaphragm and two extra sets of ear tips

Reflex Hammer

Useful for testing patellar and other reflexes, this hammer includes a solid rubber head. The triangular shape of the head can be used with wide or narrow targets. Metal handle includes a textured grip that can be held easily and securely. Overall length is 8.5”.

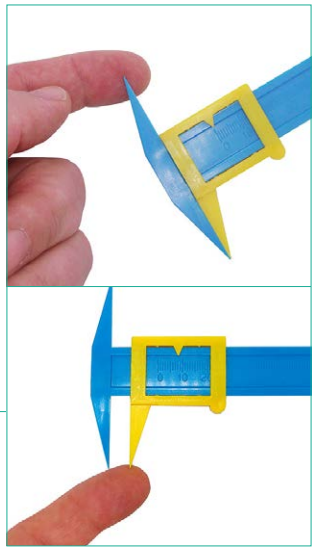

RFHAMR Reflex Hammer

+ Reflex hammer designed for testing patellar and other reflexes
+ Features a solid rubber head with a triangular shape for wide or narrow targets
+ Metal handle with a textured grip for secure and comfortable use
+ Overall length: 8.5”

Two-Point Touch Discriminator

This durable plastic tool is ideal for sensations testing. Two-point discrimination is a test used to assess if a person can identify two close points on a small area of skin. It has an additional point for switching from one to two-point simulations. The easy-to-read molded scale measures up to 100 mm. Made from ABS plastic. Includes activity guide.

Use as a single or double point test.

- Easy-to-read scale
- Single and double point stimulation
- Ranges from 1 mm to 100 mm
- Includes activity guide

TWOPOINT Two-Point Touch Discriminator

Dissection Kit, Set of 8, with Hard Case

A set of 8 dissection instruments in a hard plastic case.

UNDSET08-W Dissection Kit, Set of 8, with Hard Case

⚠ **WARNING**: Cancer and Reproductive Harm - www.P65Warnings.ca.gov.

+ A set of 8 dissection instruments in a hard plastic case

Contents:

+ Dissecting Scissors 1
+ Dissecting Forceps 1
+ Scalpel with Replaceable Blade, No. 22 1
+ Teasing Needle, Plastic Handle, Straight 1
+ Teasing Needle, Plastic Handle, Curved 1
+ Dropping Pipet 1
+ Transparent Vinyl Ruler, 6" 1
+ T-Pins 6

Dissecting Set of 9

Biology Dissecting set of 9 dissection instruments with vinyl pouch.

DSET09-SI Dissecting Set of 9

+ Biology Dissecting set of 9 dissection instruments with vinyl pouch

Contents:

+ Straight Probe
+ Bent Probe
+ Dropper Pipet
+ Scalpel
+ Tissue Forceps
+ Tweezers
+ Ruler
+ Pouch

Dissecting Instruments, Deluxe Set of 14

Deluxe set of stainless steel dissecting instruments in a zippered vinyl case.

DSET14 Dissecting Instruments, Deluxe Set of 14

⚠ **WARNING**: Cancer and Reproductive Harm - www.P65Warnings.ca.gov.

+ Deluxe set of stainless steel dissecting instruments in a zippered vinyl case

Contents:

+ Scale, 6" 1
+ Forceps, Blunt, 5" 1
+ Forceps, Sharp, Straight, 4" 1
+ Needle, Arrow 1
+ Needle, Sharp, Straight 1
+ Mall & Probe Seeker 1
+ Scalpel w/ fixed blade, 5" 1
+ Scissors, Blunt/Sharp, 5" 1
+ Scissors, Sharp, 4" 1
+ Scalpel Handle, #4 w/ Blade 1
+ Teasing Needle w/ Plastic Handle 1
+ Spatula 1
+ Needle, Angular, Blunt 1
+ Dropper 1

Dissecting Instruments, Deluxe Set of 14 with Dissecting Tray

A convenient starter set of 14 dissecting instruments and a dissecting tray with wax. The tray includes a layer of white wax and measures 11.5” x 7.5” x 2”.

DSST01 Dissecting Instruments, Deluxe Set of 14 with Dissecting Tray
